

# Customer information

---

## **SENNING can save you energy, costs and time!**

**The heating elements of our new side heater are easily separately switchable, depending on the product heights.**

**Save Energy**

No waste of energy, since unused heating elements are not running constantly!

**Save Costs**

ONE side heater for ALL product heights! Additional format parts are not required anymore!

**Save Time**

No more time-consuming changes of formats parts at the side heater. Easy and fast sealing - regardless of the package heights!

**Please contact our Service or Sales Team for further information!**
